

BEARHUGZZZ

Unique bearhugzzz bed was researched and designed after consultations with occupational therapists and parents of special needs children. It will keep children or adults who are prone to self injury, safe, secure and comfortable whilst in bed.

Bearhugzzz comprises four foam filled triangular shaped walls and the mattress consists of four 200mm depth foam sections. The walls are all connected with zips,thus giving a choice of four different access points and enabling the kindersafe bed to be easily disassembled for transportation.

All Bearhugzzz beds are covered with a choice of patterned or plain anti microbial, waterproof fabric or a combination of both.he unique bearhugzzz bed was researched and designed after consultations with occupational therapists and parents of special needs children.
